## ancillary products

### fitting greases

fig. Part No. description

1	890119	Fermit GLISSA - tube 30g Non-dripping lubricating grease for hot and cold water valves and fittings Ductile, smooth, non-dripping lubricating grease for valves and fittings, that with regard to food law is beyond reproach and is therefore also suitable for drinking water pipes. Can also be used for machines and equipment where Glissa valve and fitting grease comes into contact with food or drinking water. Temperature range: -20°C to +140°C Approved by NSF-H 1 and DIN 51502
2	890116	Fermit GLISSA - tube 60g Non-dripping lubricating grease for hot and cold water valves and fittings Ductile, smooth, non-dripping lubricating grease for valves and fittings, that with regard to food law is beyond reproach and is therefore also suitable for drinking water pipes. Can also be used for machines and equipment where Glissa valve and fitting grease comes into contact with food or drinking water. Temperature range: -20°C to +140°C Approved by NSF-H 1 and DIN 51502
3	890118	Fermit GLISSA - can 1000g Non-dripping lubricating grease for hot and cold water valves and fittings Ductile, smooth, non-dripping lubricating grease for valves and fittings, that with regard to food law is beyond reproach and is therefore also suitable for drinking water pipes. Can also be used for machines and equipment where Glissa valve and fitting grease comes into contact with food or drinking water. Temperature range: -20°C to +140°C Approved by NSF-H 1 and DIN 51502

### PTFE tapes

#### technical data:

thickness 0,1mm  
features temperature-resistant, elastic

pos.	Part No.	L (m)	W (mm)	temp. (°C)	approval
1	890012	12	12	-200 up to +260	DIN-DVGW, KTW
2	890100	12	12	-200 up to +260	DIN-DVGW, KTW
3	890013 <sup>1</sup>	13.3	12.7	-240 up to +260	DIN-DVGW, KTW, BAM

<sup>1</sup>Golden Band

### thread sealing cords

fig.	Part No.	product name	L (m)	temp. (°C)	approval
1	890109	FERMIT	175	-200 up to +240	DVGW, KTW, WRC, UL
2	890162	LOCTITE 55	50	-55 up to +130	DVGW, KTW, WRAS, NSF

### hemp

fig.	Part No.	description
1	890089	hemp dispenser
2	890080	Neo-Fermit - 150g Non-toxic sealing paste for metal threaded connections in conjunction with hemp. Suitable for gas and drinking water in domestic equipment installations (DIN-DVGW-Reg. 83.01c188).
3	890086	sealing hemp coil 80g

### sealants

fig.	Part No.	description
1	890081	Hochdruck-Fermit - can 500g Non-toxic, pressure-proof and heat-resistant pasty putty for sealing threads, flanges and faces on high-pressure equipment, turbine casings, steam lines etc. - also in conjunction with hemp. Temperature range: -20°C up to +160°C, briefly also up to +200°C Pressure: maximum 16 bar
2	890083	Plastic-Fermit - can 250g - white Plastic-Fermit is a permanently plastic, kneadable sealant compound based on plastic which meets the highest demands made on sanitary installation. Is particularly suitable for the insertion of drain valves in, for example, washstands, baths and is suitable for hot and cold water. Do not use for marble or other natural stone! Temperature range: -10°C to +100°C
3	890082	Plastic-Fermit - can 500g - white Plastic-Fermit is a permanently plastic, kneadable sealant compound based on plastic which meets the highest demands made on sanitary installation. Is particularly suitable for the insertion of drain valves in, for example, washstands, baths and is suitable for hot and cold water. Do not use for marble or other natural stone! Temperature range: -10°C to +100°C

## surface sealants

1 2 3 4

### fig. Part No. description

1 890084	Fermitol - bottle 125ml Liquid synthetic resin sealant resistant to oil, liquefied petroleum gas, petrol, benzene, paraffin/kerosene, greases, water, steam, acid, alkaline solution, brine, seawater etc., once set also resistant to spirit and all fuel mixtures. For the sealing of threads, flanges and faces on water, petrol, greases and oil lines, oil heating units, propane gas units, engines, engine casings, gearboxes, machines, process equipment and tanks.
2 890070	LOCTITE® 518™ - cartridge 50ml Medium-strength sealant which cures when confined in the absence of air between close-fitting metal surfaces. Typical applications include sealing close-fitting joints between rigid metal faces and flanges. Provides resistance to low pressures immediately after assembly of flanges. Typically used as a form-in-place gasket on rigid flanged connections, e.g. transmissions and engine casings.
3 890071	LOCTITE® 573™ - bottle 50ml Seals close-fitting joints between rigid metal faces and flanges. The product cures when confined in the absence of air between close-fitting metal surfaces. Typically used as a form-in-place gasket on rigid flanged connections, e.g. transmission and engine casings, etc. It is the ideal product for part assembly jobs extending over several hours. The nature of LOCTITE 573 reduces the migration of liquid product after application to the part.
4 890072	LOCTITE® 574™ - bottle 50ml Seals close-fitting joints between rigid metal faces and flanges. The product cures when confined in the absence of air between close-fitting metal surfaces. It provides resistance to low pressures immediately after assembly. Typically used as a form-in-place gasket on rigid flanged connections. The nature of LOCTITE® 574™ reduces the migration of liquid product after application to the substrate. It has a high oil tolerance and excellent water and glycol resistance.

## thread sealants

1 2 3 4 5

### fig. Part No. description

1 890084	Fermitol - bottle 125ml Liquid synthetic resin sealant resistant to oil, liquefied petroleum gas, petrol, benzene, paraffin/kerosene, greases, water, steam, acid, alkaline solution, brine, seawater etc., once set also resistant to spirit and all fuel mixtures. For the sealing of threads, flanges and faces on water, petrol, greases and oil lines, oil heating units, propane gas units, engines, engine casings, gearboxes, machines, process equipment and tanks.
2 890058	LOCTITE® 511™ - bottle 50ml It is designed for the locking and sealing of metal threaded pipes and fittings. The product cures rapidly when confined in the absence of air between close fitting metal surfaces.
3 890135	LOCTITE® 511™ - tube 50ml It is designed for the locking and sealing of metal threaded pipes and fittings. The product cures rapidly when confined in the absence of air between close fitting metal surfaces.
4 890098	LOCTITE® 5331™ - tube 100ml It is designed for the locking and sealing of plastic and metal fittings carrying hot or cold water, e.g. industrial and agricultural plastic water pipe systems or drainage systems.
5 890128	LOCTITE® 542™ - bottle 50ml It is designed for the locking and sealing of metal pipes and fittings as well as other cylindrical metal assemblies. The product cures when confined in the absence of air between close-fitting metal surfaces and prevents loosening and leakage due to shock and vibration. The thixotropic nature of LOCTITE 542 reduces the migration of liquid product after application to the part.

6 7

### fig. Part No. description

6 890097	LOCTITE® 577™ - bottle 50ml It is designed for the locking and sealing of metal pipes and fittings as well as other cylindrical metal assemblies. The product provides an instant, low-pressure seal for metal pipes and fittings. It will not creep, shrink or block systems by shredding. Suitable for fast application at low temperatures. It has excellent chemical and thermal resistance and offers less migration of liquid product after application to the part.
7 890096	Universal type for all non-releasable threaded joints (3/8" - R2"), high-strength. Approved by DIN-DVGW. Application area: Specially developed for all DVGW applications of production class 3, non-releasable. Universally applicable as a threadlocker and joint with relatively large amount of clearance.

## silicone

## industrial silicones

fig.	Part No.	description
1	890007	Fermitopp N - cartridge 310ml - grey Elastic, odourless silicone joint sealant with fungistatic incorporation, lightfast, cleaner-resistant and reacting with atmospheric moisture. For sealing, above all, in sanitary and damp rooms, in the kitchen area and in sectional furniture. Temperature range -40°C to +120°C
2	890112	OTTOSEAL S 100 - cartridge 300ml - aluminium Used for expansion joints in bathroom areas, sealing of expansion joints in floor and wall areas, sealing and bonding of glass modules and sealing double glazings (e. g., Profilit"). - 1-component acetate-curing silicone sealant - Excellent weathering, ageing and UV-resistance - Contains fungicide and bacteriostatic - Unique processing characteristics - Surface can be smoothed very easily - Very good adhesion on ceramic substrates - Stress expansion modules at 100% (DIN 53 504, S3A): 0.3N/mm <sup>2</sup> - Temperature range -40°C to + 180°C
2	890110	OTTOSEAL S 100 - cartridge 300ml - transparent Used for expansion joints in bathroom areas, sealing of expansion joints in floor and wall areas, sealing and bonding of glass modules and sealing double glazings (e. g., Profilit"). - 1-component acetate-curing silicone sealant - Excellent weathering, ageing and UV-resistance - Contains fungicide and bacteriostatic - Unique processing characteristics - Surface can be smoothed very easily - Very good adhesion on ceramic substrates - Stress expansion modules at 100% (DIN 53 504, S3A): 0.3N/mm <sup>2</sup> - Temperature range -40°C to + 180°C
2	890111	OTTOSEAL S 100 - cartridge 300ml - white Used for expansion joints in bathroom areas, sealing of expansion joints in floor and wall areas, sealing and bonding of glass modules and sealing double glazings (e. g., Profilit"). - 1-component acetate-curing silicone sealant - Excellent weathering, ageing and UV-resistance - Contains fungicide and bacteriostatic - Unique processing characteristics - Surface can be smoothed very easily - Very good adhesion on ceramic substrates - Stress expansion modules at 100% (DIN 53 504, S3A): 0.3N/mm <sup>2</sup> - Temperature range -40°C to + 180°C

## food-grade silicones

fig.	Part No.	description
1	890115	OTTOSEAL S 27 - cartridge 300ml - grey Used for sealing in the food sector, e. g. in dairies, abattoirs, beverage and food production plants, canteen kitchens etc. and sealing in the drinking water area between ceramic coatings. - 1-component acetate-curing silicone sealant - Tested for applications in the food and drinking water sector - Good chemical resistance, e. g. to diluted acids and bases - High resistance to notches, tension and tearing - Excellent weathering, ageing and UV-resistance - Temperature range -40°C to + 180°C
1	890113	OTTOSEAL S 27 - cartridge 300ml - transparent Used for sealing in the food sector, e. g. in dairies, abattoirs, beverage and food production plants, canteen kitchens etc. and sealing in the drinking water area between ceramic coatings. - 1-component acetate-curing silicone sealant - Tested for applications in the food and drinking water sector - Good chemical resistance, e. g. to diluted acids and bases - High resistance to notches, tension and tearing - Excellent weathering, ageing and UV-resistance - Temperature range -40°C to + 180°C
1	890114	OTTOSEAL S 27 - cartridge 300ml - white Used for sealing in the food sector, e. g. in dairies, abattoirs, beverage and food production plants, canteen kitchens etc. and sealing in the drinking water area between ceramic coatings. - 1-component acetate-curing silicone sealant - Tested for applications in the food and drinking water sector - Good chemical resistance, e. g. to diluted acids and bases - High resistance to notches, tension and tearing - Excellent weathering, ageing and UV-resistance - Temperature range -40°C to + 180°C
2	890106	Tomabond - TB40 - tube 90g - transparent For flexible sealing in drinking water, food, water and industrial kitchen areas. Securely joins glass, metal, wood-based materials, ceramic and plastics with high adhesion (1.1 N/mm <sup>2</sup> ). Fungicide-, algicide- and solvent-free, ageing-resistant. Temperature-resistant from -40 °C to +160 °C Tested and approved by KTW / KSW.

## dispensing guns

## hose clamp assortment cases

1

fig.	Part No.	material	scope of delivery	type
1	520127	SS	3m tensioning belt, 8 x tension locks	EASYROLL

1

2

3

fig.	Part No.	description
1	520123	tension lock SS 1.4301
2	515080	tension strap Qty 10 pcs
3	520122	tensioning belt SS Qty 5m W 8mm

## water testing equipment

## conductivity meters

1

fig.	1
Part No.	800196
type	GMH 3431
measuring range	0µS/cm-200mS/cm
temp. (°C)	0-85
display	conductivity/temperature
function	auto-range; hold function
interface	serial (adapter not included)
min/max value memory	X
accuracy (temperatur)	±0.2% v. MW ±0.3K
conductivity 1	0-200.0µS/cm
conductivity 2	0-2000µS/cm
conductivity 3	0-20.00mS/cm
conductivity 4	0-200.0mS/cm
dimensions (mm)	142x71x26

## TDS meters

1

fig.	1
Part No.	800010
type	TDS-3
measuring range	0-9990 ppm
temp. (°C)	0-80
display	ppm
function	with thermometer feature
interface	-
min/max value memory	HOLD
accuracy (temperatur)	± 2%
dimensions (mm)	155x31x23

## pH meters

1

fig.	Part No.	pH	temp. (°C)	dimensions (mm)	resolution	connection
1	800009	0-14pH	0-80	153x32x18	0.1	-

2

fig.	Part No.	pH	temp. (°C)	dimensions (mm)	resolution	connection
2	800198 <sup>1</sup>	0-14pH	-5 up to +150	142x71x26	0.1°C	BNC socket

<sup>1</sup>with serial interface

## accessories

1

fig.	Part No.	pH	temp. (°C)	connection
1	800199	0-14pH	0-80	BNC plug

## measuring devices

fig.	Part No.	description
1	800358	control strip Chlorine Qty 100 pcs
2	800075	control strip pH 0-14pH Qty 100 pcs
3	800304	control strip pH 4.5-10 Qty 100 pcs

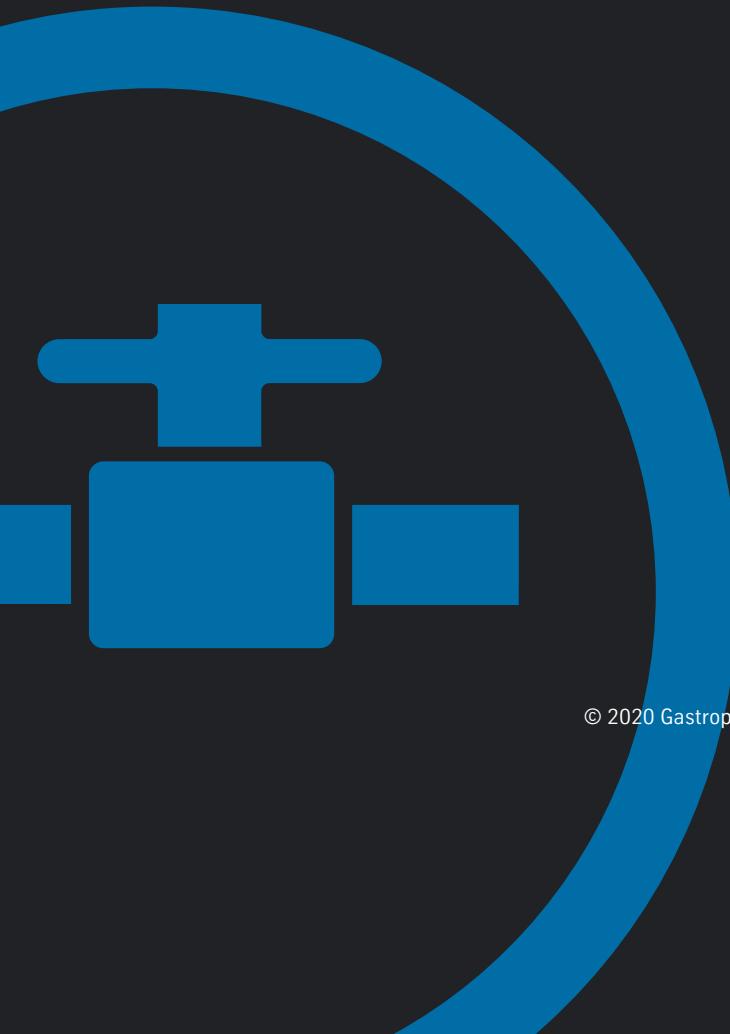

fig.	Part No.	description
4	541474	control strip type water hardness test water hardness (German)
5	800034	measuring device total hardness and carbonate hardness

fig.	Part No.	description
6	540621	measuring device type carbonate hardness general test
7	540620	measuring device type general test for water hardness

fig.	Part No.	description
8	800306	measuring device type water hardness test water hardness (French)
9	800308	measuring device type water hardness test water hardness (German)
